The world is changing every day at increasingly fast speeds. New technologies, products, and services offer new opportunities as well as new ways to interact with clients and customers. At UMN Crookston you’ll develop your ability to recognize and solve business and organizational challenges as you gain a stronger understanding of how the diverse areas of business play a role in the local community, region, nation, and world. We can help you decide how you choose to make a difference and prepare you to take those first steps.

At the U of M Crookston, you won’t spend all your time behind a desk. Our curriculum is designed around experiential learning, which means we want you to have as much hands-on learning as possible. Depending on your major, you’ll find opportunities to work directly with businesses to enhance their operation or engaging in simulated scenarios that give you a competitive edge when you enter the workforce or head to grad school. You’ll work closely with faculty to learn the concepts and then actively apply them through projects, field trips, site visits, internships, and interactions with professionals in the field.
