Implementation will result from campus-wide interaction and working groups. More to come.

Evaluation will occur after implementation.

Over the course of Spring Semester, 2014, campus constituent groups and individuals will have opportunities to provide input and actively participate in the work groups.

The Executive Committee, along with other members of the UMC community, spent several weeks drafting three key documents:
1) Future Business Model
2) Institutional Identity Statement
3) Strategy Screen

During a retreat in January 2014, the expanded Executive Committee, considered a number of UMC’s current opportunities and challenges and formulated three “Big Questions” around the three themes.

The three “Big Questions” became three teams. Each team has continued to meet to further develop and refine their ideas.
